

Activity Overview

With a deeper dive into the science behind PRP, how its produced, the components, the history, and differences between manufacturers, learners will be able to make better educated decisions which in turn will lead to greater patient safety/satisfaction. All these items will yield a result of a more developed and trusted market behind PRP.

Target Audience

This activity is intended to meet the needs of physicians, physician assistants, nurse practitioners, and nurses.

Learning Objectives

Upon completion of the educational activity, participants should be able to:

- Discuss the science behind PRP and what differentiates various PRP systems & PRP.
- Recognize the importance of FDA 510k clearance.
- Explain clinical trial considerations for the use of PRP injections for hair restoration and facial rejuvenation, diagnosis and impact on patients.
- Review safety and efficacy of emerging and current trends in aesthetic restoration, client selection, contraindications, reactions, and patient education.
- Review protocol for injection placement, depth of penetration, PRP microneedling, consent and intake forms.
- Employ strategies to attain and retain patients.
- Identify measurable endpoints of treatment and when to consider combination therapy, prescription, dosing, and at home regimen.

Method of Participation

In order to receive credit, participants should watch the entire video. Statements of credit will be awarded upon completion of the post-test and online evaluation/claim credit form. If you have questions about this CE activity, please contact AKH Inc. at JGoldman@akhcme.com.

	CE Credit Provided by AKH Inc., Advancing Knowledge in Healthcare.
