

ACCREDITED CE

ADVANCED MICRONEEDLING & HAIR RESTORATION

ONLINE TRAINING PACKAGE

This accredited online learning activity reviews the data supporting hair restoration therapy and microneedling monotherapy and combination therapy. Discussion includes mechanism of action, application in different disease states, and risk profiles. Learn how to effectively and safely integrate these protocols into clinical practice. 8 video modules include advanced skill demonstration videos along with pearls for success based on expert experience and recommendations.

Yael Halaas, MD, FACS
BOARD CERTIFIED FACIAL PLASTIC SURGEON

Amelia K. Hausauer, MD, FAAD
BOARD CERTIFIED DERMATOLOGIST

Jeffrey Rapaport, MD, FAAD
BOARD CERTIFIED DERMATOLOGIST

Clinical Trials

Understand the clinical trial considerations for the use of PRP diagnosis and its impact on patients.

Safety & Efficacy

Review safety and efficacy of emerging and current trends, client selection, contraindications, reactions, and patient education.

Protocols

Review protocols for advanced microneedling and hair restoration therapies, consent and intake forms.

Combination Therapy

Understand measurable endpoints of treatment and when to consider combination therapy, prescription, dosing, and at home regimen.

Results & Outcomes

Discuss the mechanism of action and biologic changes responsible for optimal outcomes.

LIVE Q&A discussion EVERY 2nd Tuesday of the month, 7pm EST, with industry experts! Visit revivetrainings.com to register
